EXTRA TIPS FOR A STRONG, HEALTHY BACK

WARM UP

5-10 minutes of
light cardio +
dynamic stretches.

FOCUS ON FORM

Use full range of
motion and control
every rep.

MIND-MUSCLE CONNECTION

Squeeze your
back muscles
at the top.

PROGRESSIVE OVERLOAD

Increase weight,
reps or sets over
time.

REST & RECOVER

Muscles grow
when you rest.
Sleep 7-9 hours.

STAY CONSISTENT

Small, consistent
effort brings
big results.

SAMPLE WEEKLY PLAN

MONDAY Back + Biceps
TUESDAY Legs
WEDNESDAY Chest + Shoulders
THURSDAY Rest / Mobility
FRIDAY Back + Rear Delts
SATURDAY Legs + Core
SUNDAY Rest

UPPER BACK
(Traps, Rhomboids)

LATS
(Width)

LOWER BACK
(Erector Spinae)

REAR DELTS
(Posture)

COMMON MISTAKES

- ✓ Rounding your back
- ✓ Using too much weight
- ✓ Not squeezing at the top
- ✓ Partial range of motion
- ✓ Ignoring lower back & posture work

STRETCH IT OUT

Finish your workout with
these stretches.

- Child's Pose
- Cat-Cow Stretch
- Lat Stretch
- Seated Forward Fold
- Thoracic Rotation

A STRONG BACK SUPPORTS A STRONG YOU.

MOVE BETTER. FEEL BETTER. LIVE BETTER.
