

10-MINUTE MOVE, PLAY, GROW!

A FUN FLOW TO BUILD SKILLS AND CONNECTION—ANYWHERE!

♥ Build skills. ★ Have fun. 🌱 Grow together.

1 WIGGLE WAKE-UP 1 MIN

Shake hands, stomp feet, reach high, touch toes, spin once.

★ Builds body awareness and gets them ready!

2 ANIMAL WALKS 2 MIN

Bear walk, bunny hops, crab walk, flamingo stand.

★ Builds gross motor strength, motor planning, and core stability.

You pick the next animal!

3 RED LIGHT / GREEN LIGHT 2 MIN

March or run on "green," freeze on "red."

★ Builds impulse control, listening, and balance. The freeze is the real skill!

4 ROLL, THROW, CATCH 2 MIN

Sit facing each other and roll a ball back and forth, then progress to a gentle toss.

★ Builds hand-eye coordination and turn-taking. Name colors or count reps out loud!

5 PILLOW OBSTACLE COURSE 2 MIN

Step over a pillow, crawl under your bridged legs, jump off a low step.

★ Builds spatial awareness, problem-solving, and coordination. Narrate it: "over... under... jump!"

6 CALM + CONNECT 1 MIN

Three slow "smell the flower," blow the candle" breaths, then a big hug or a few back rubs.

★ Builds self-regulation and ends on connection and bonding.

A FEW NOTES:

At 2: more demonstration, shorter holds, lots of praise.

At 4: add challenge (hop on one foot, catch without a bounce).

Following their energy matters more than nailing the order!

You've got this!
