ONE INTELLIGENCE. MANY WAYS TO WORK.

LILIHUMAN.COM

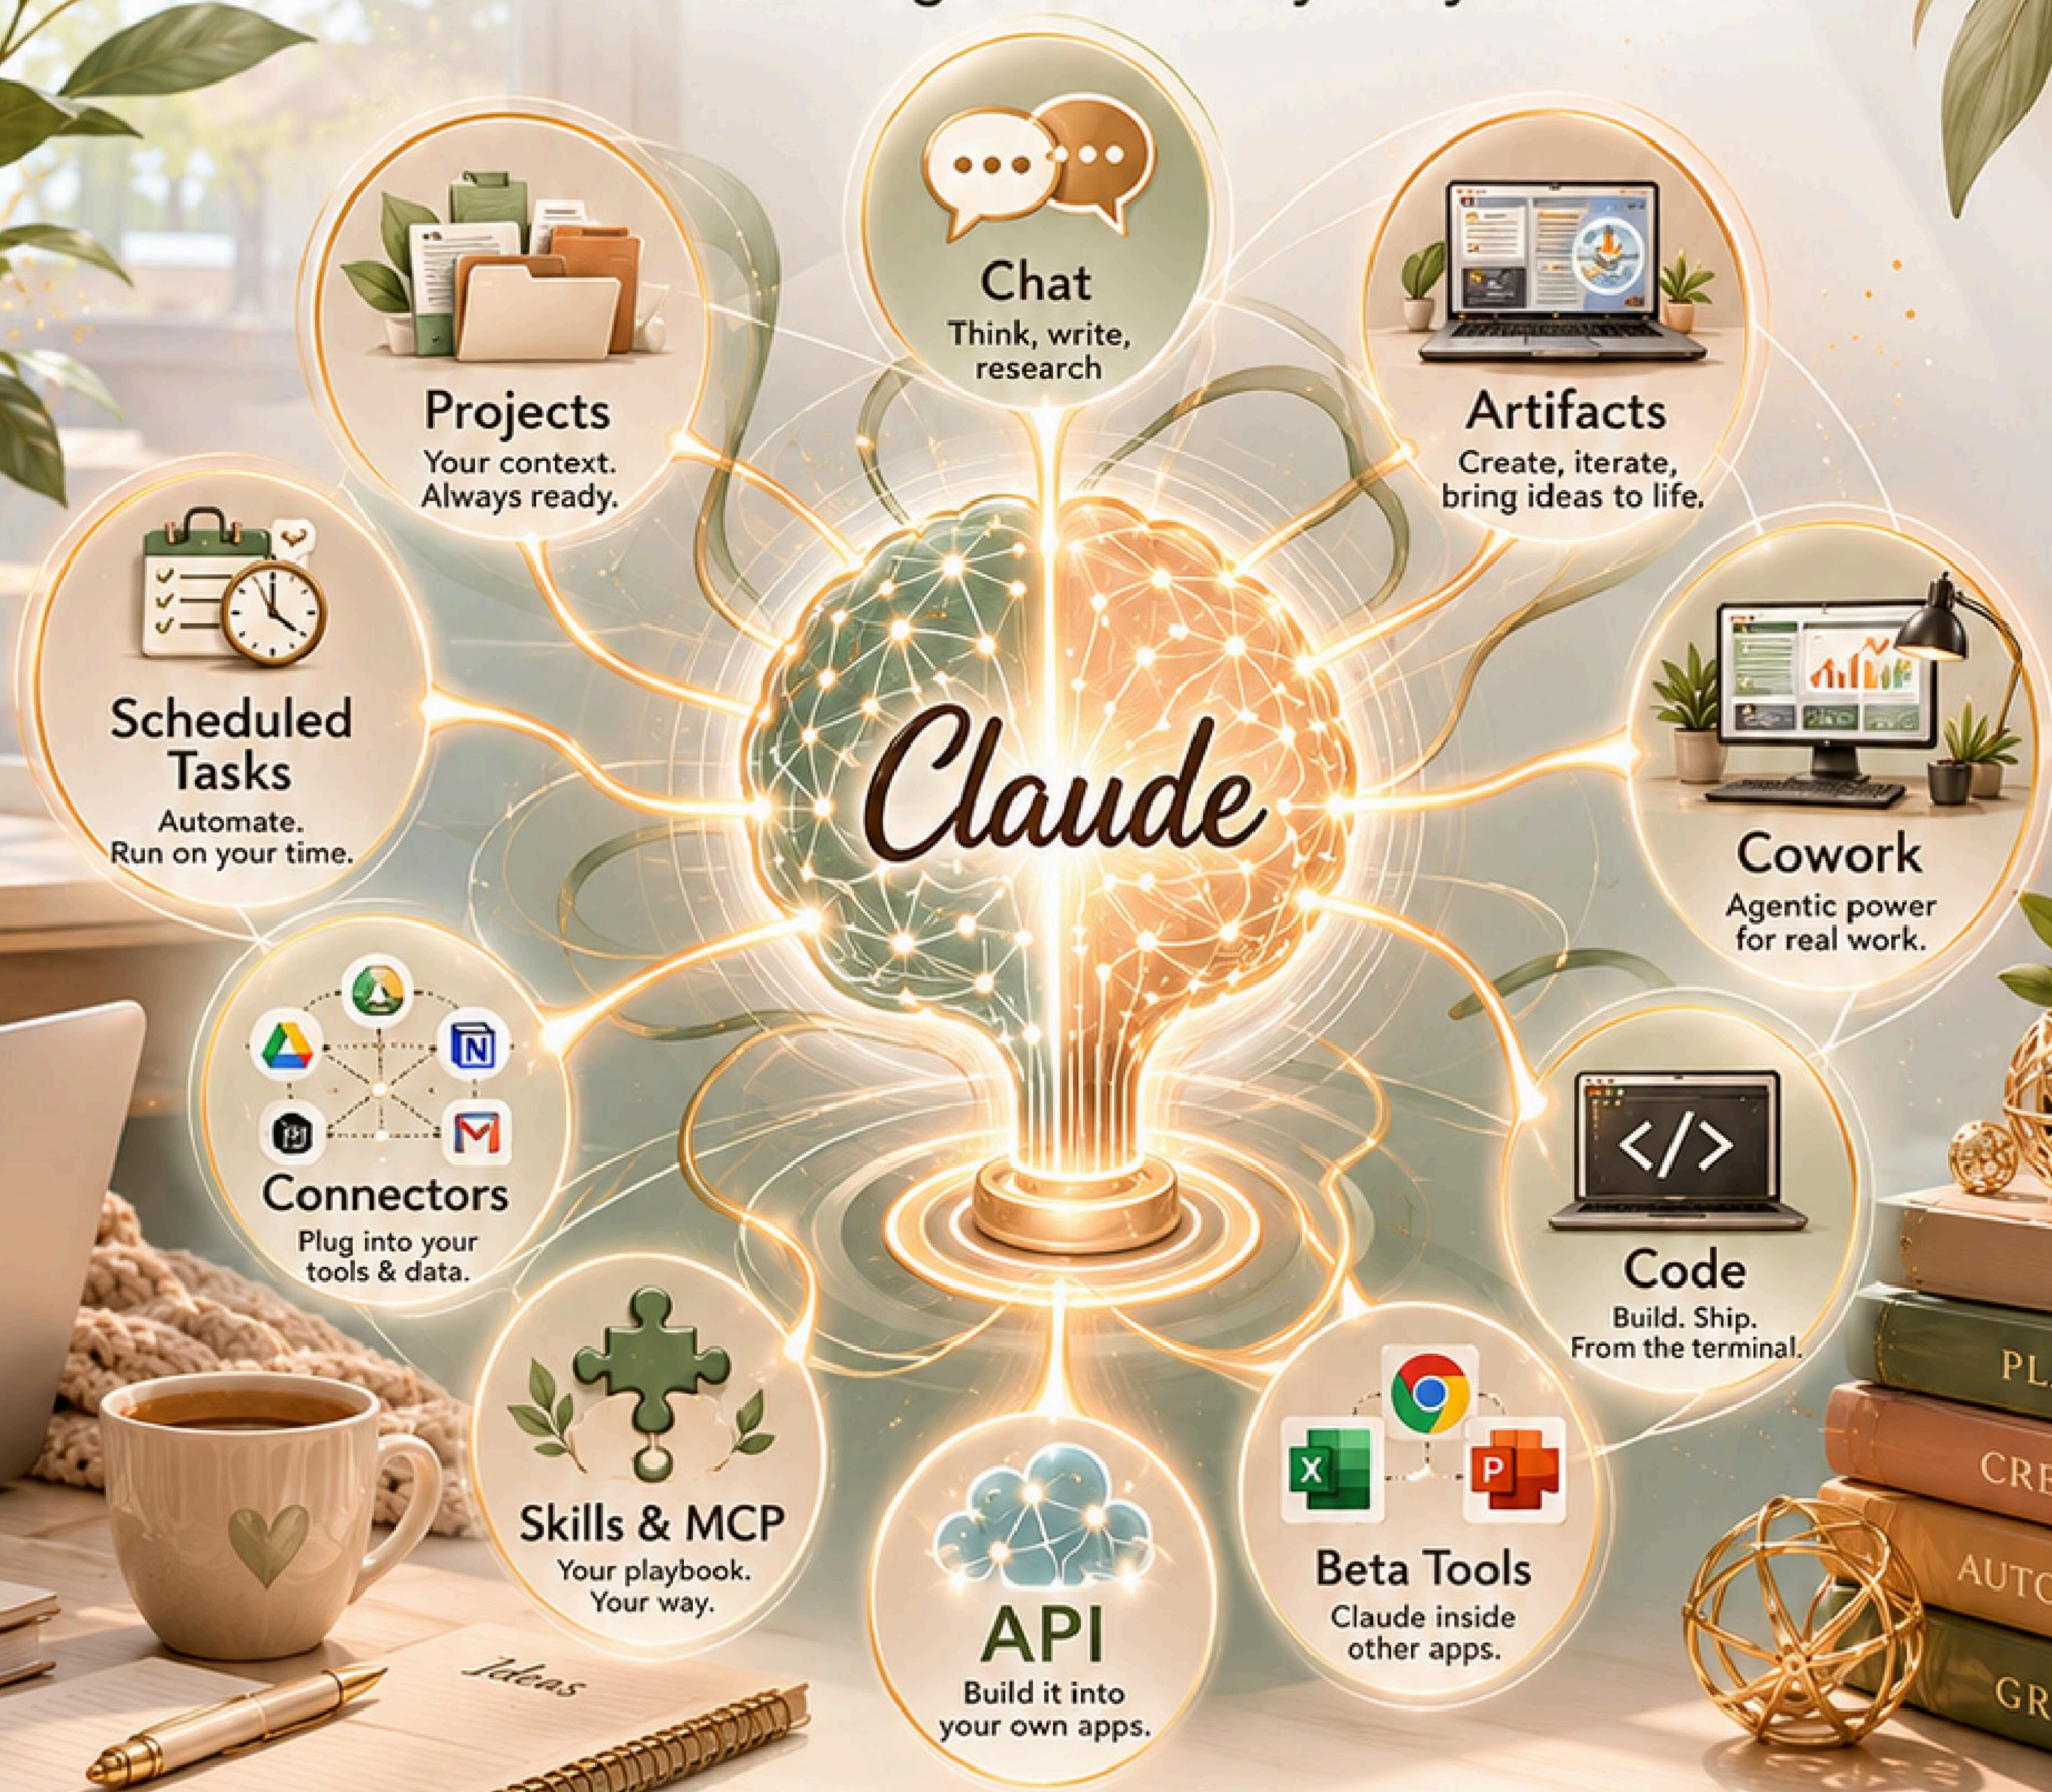

MODULE

00

The Map of the Ecosystem

One intelligence. Many ways to work.

Learn gently. Build boldly. Live intentionally.

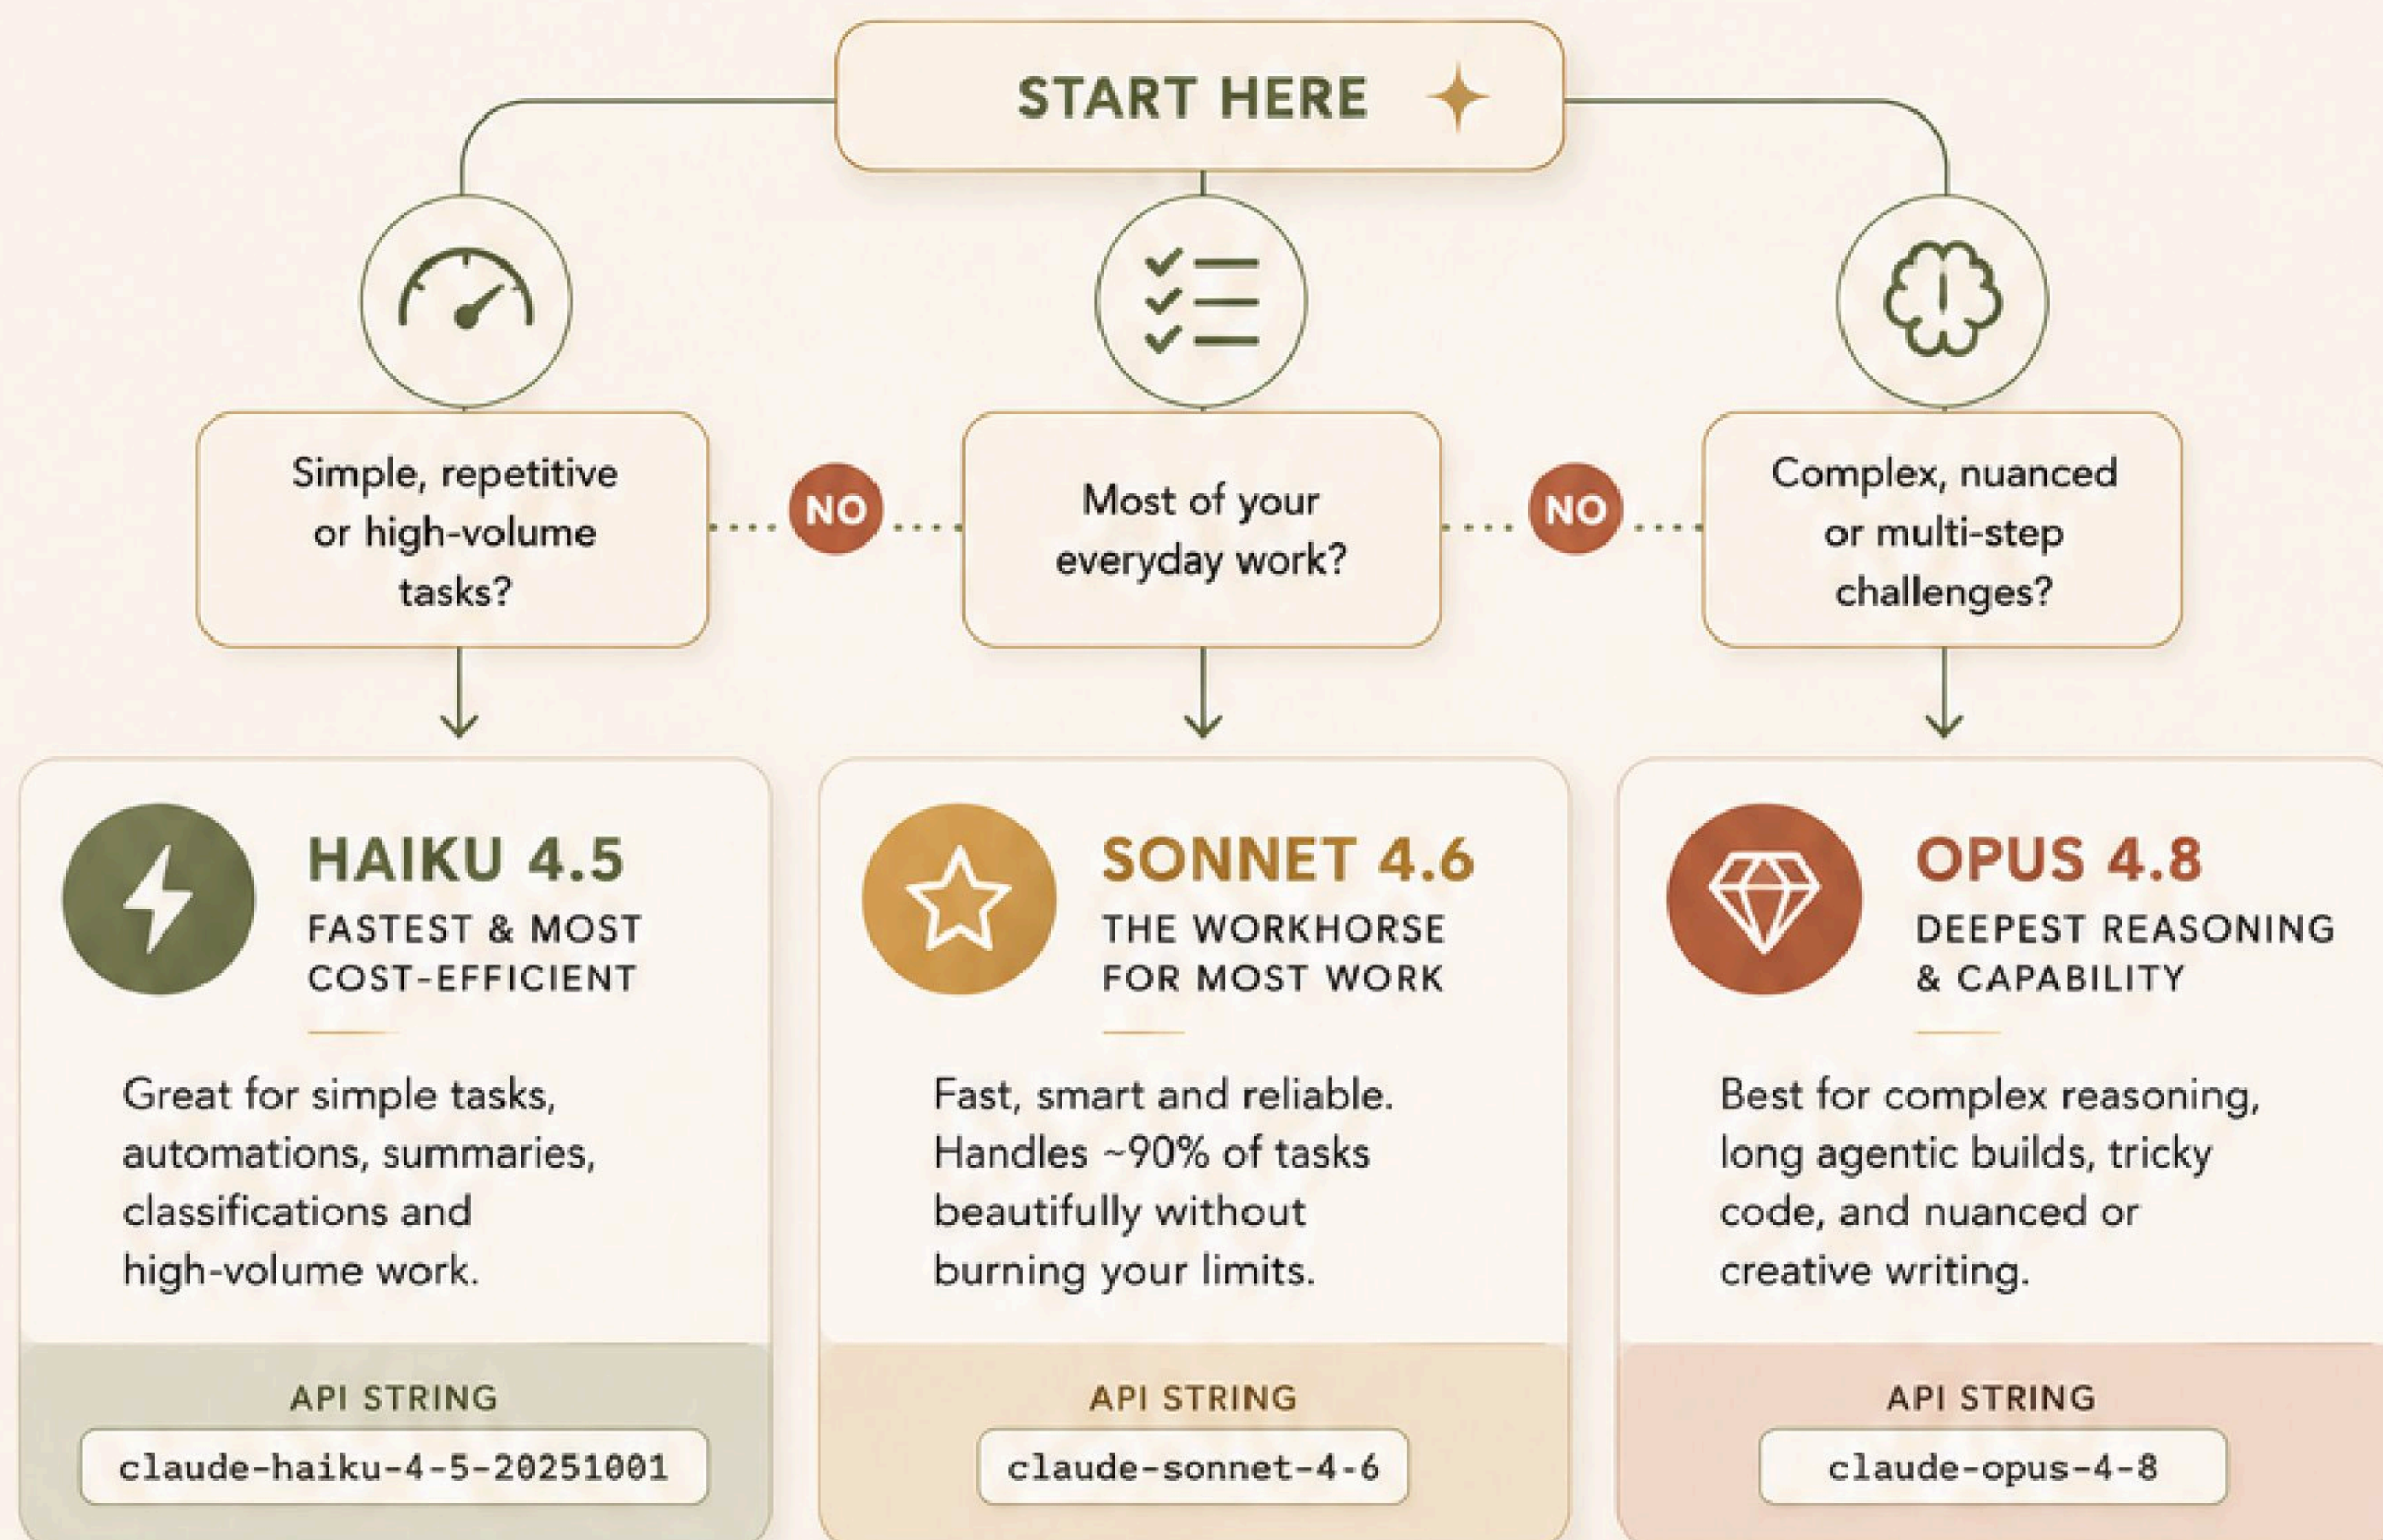

— MODULE —

01

The Models & How to Pick

Right model. Right result.

Claude comes in a family of models. They share the same character; they differ in raw capability, speed, and cost. Choosing well is your biggest lever.

QUICK GUIDE

- ✓ Default to Sonnet 4.6 for most of your daily work.
- ✓ Use Opus 4.8 when the task is genuinely hard or the stakes are high.
- ✓ Use Haiku 4.5 for high-volume, simple, or time-sensitive tasks.

ADAPTIVE vs. EXTENDED THINKING

Opus 4.8 / 4.7 use adaptive thinking — the model decides how much to reason. Other models let you turn on Extended Thinking when you need it. ✨

— MODULE —

02

Conversations Done Well

Better prompts. Better outcomes.

Before any fancy features, the highest-return skill is steering a conversation. These simple controls will transform everything you create with Claude.

— CORE CONTROLS THAT CHANGE EVERYTHING —

MAKE IT STICK

Save your standing instructions in User Preferences and Styles so Claude already knows your voice, format, and priorities — no need to repeat yourself.

*Set once.
Applied always.*

MODULE

03

Artifacts

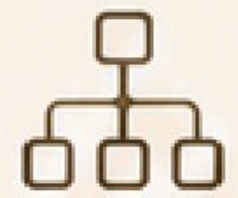

Ideas you create, iterate, and bring to life.

Artifacts are anything Claude builds that live in their own panel beside the chat — and that you keep, edit, and reuse. It's how a conversation becomes a thing.

DOCUMENTS

Long writing, reports, articles and more.

DIAGRAMS & VISUALS

Flowcharts, charts, SVG graphics and more.

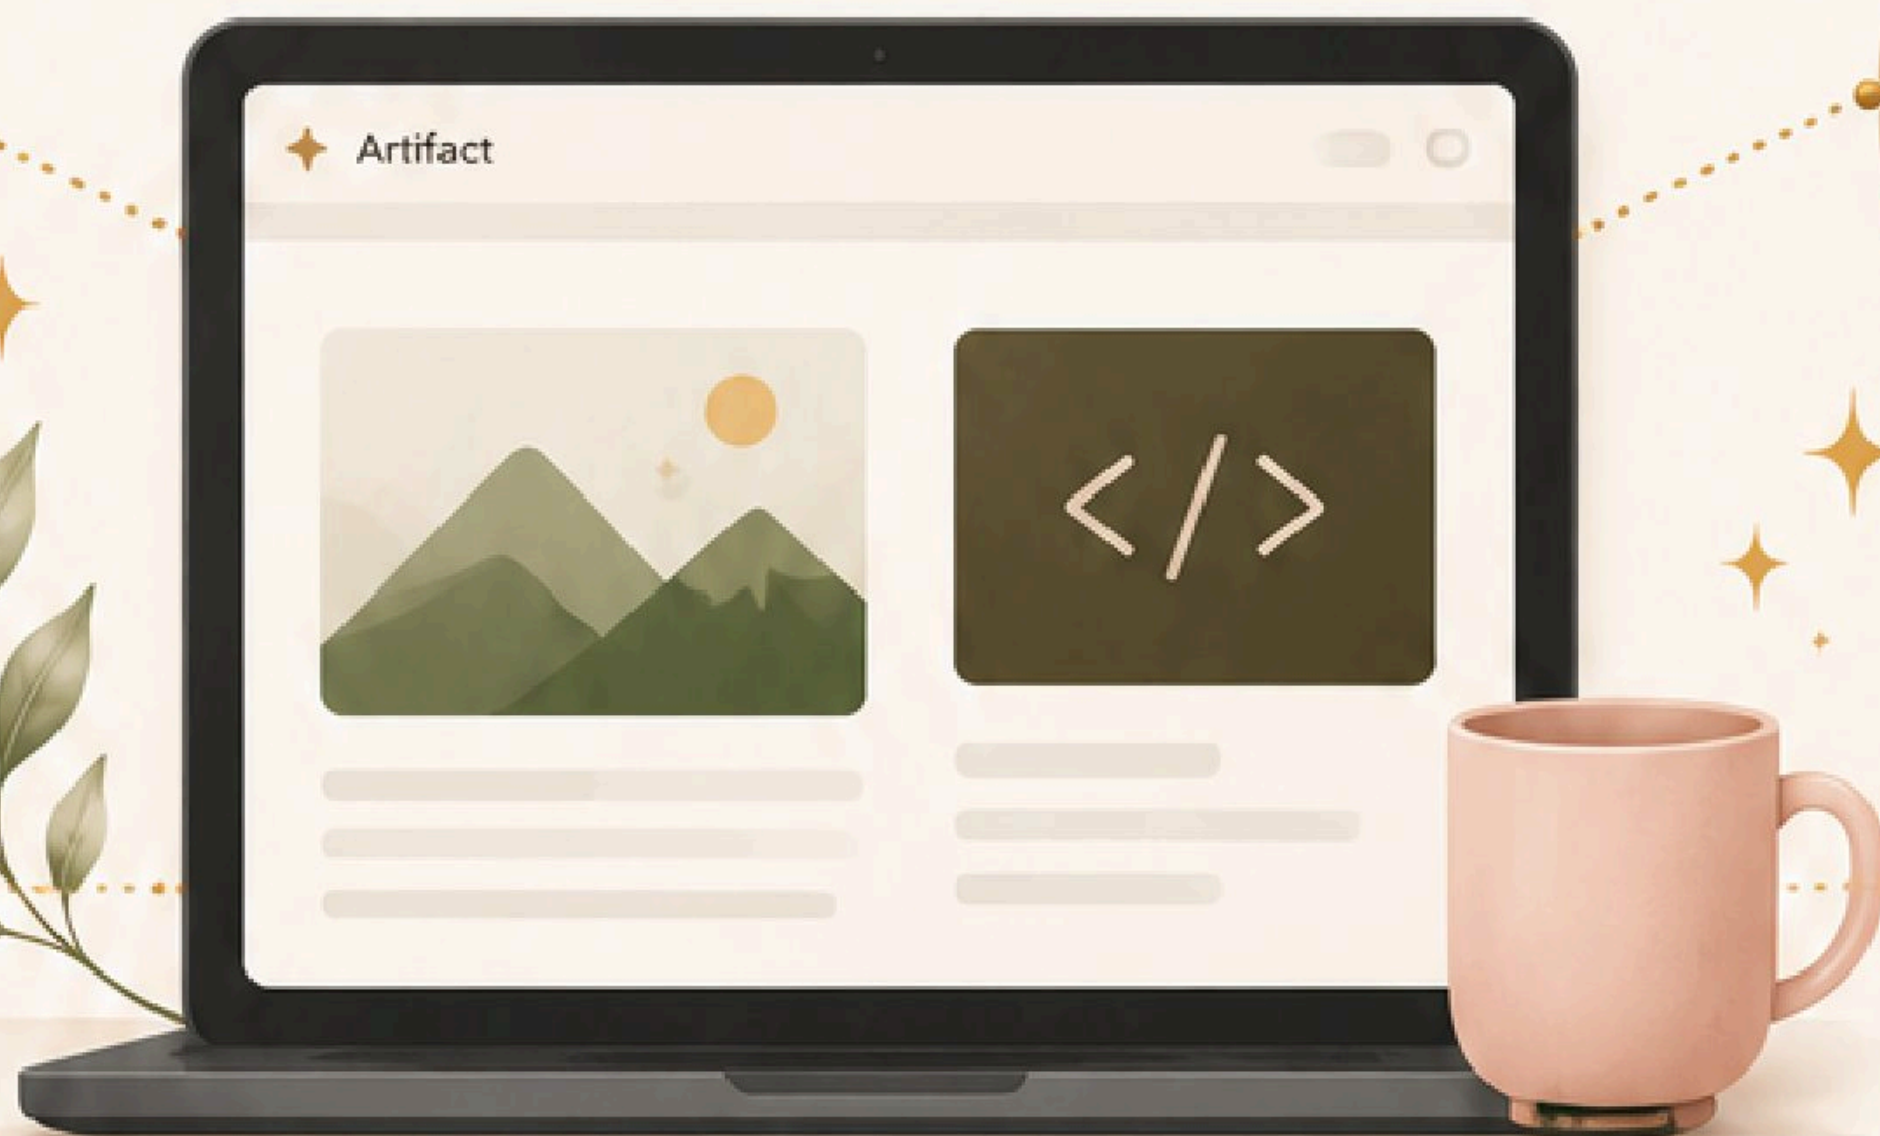

WEB PAGES & APPS

Build pages, sites and interfaces that run.

INTERACTIVE TOOLS

Calculators, trackers, planners and custom tools.

TWO POWER FEATURES PEOPLE MISS

1

PERSISTENT STORAGE

Artifacts can save data that survives across sessions using a built-in key-value store. Build real journals, habit trackers or leaderboards — not just static pages.

Data can be private to you or shared with others.

2

AI-POWERED ARTIFACTS ("CLAUDE INSIDE CLAUDE")

An Artifact can call Claude itself. Create mini-apps that generate personalized results, grade quizzes, rewrite copy, and more — live, in the browser.

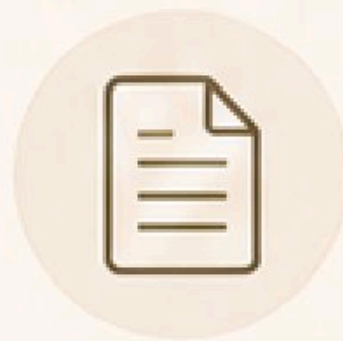

Turn a tool into something genuinely intelligent.

WHEN TO USE AN ARTIFACT VS. A CREATED FILE

ARTIFACT

Something you'll view, iterate on, or run — like a page, app, or long document.

CREATED FILE

A finished deliverable to download — like a Word doc, spreadsheet, PDF, or presentation.

LILIHUMAN.COM

MODULE

04

Projects

Your organized hub for everything that matters.

Projects give Claude memory, structure, and context. Keep everything in one place so Claude understands your goals, knowledge, and preferences.

EVERYTHING TOGETHER

Chats, files, artifacts, and knowledge in one place.

BUILT-IN MEMORY

Claude remembers what matters across sessions.

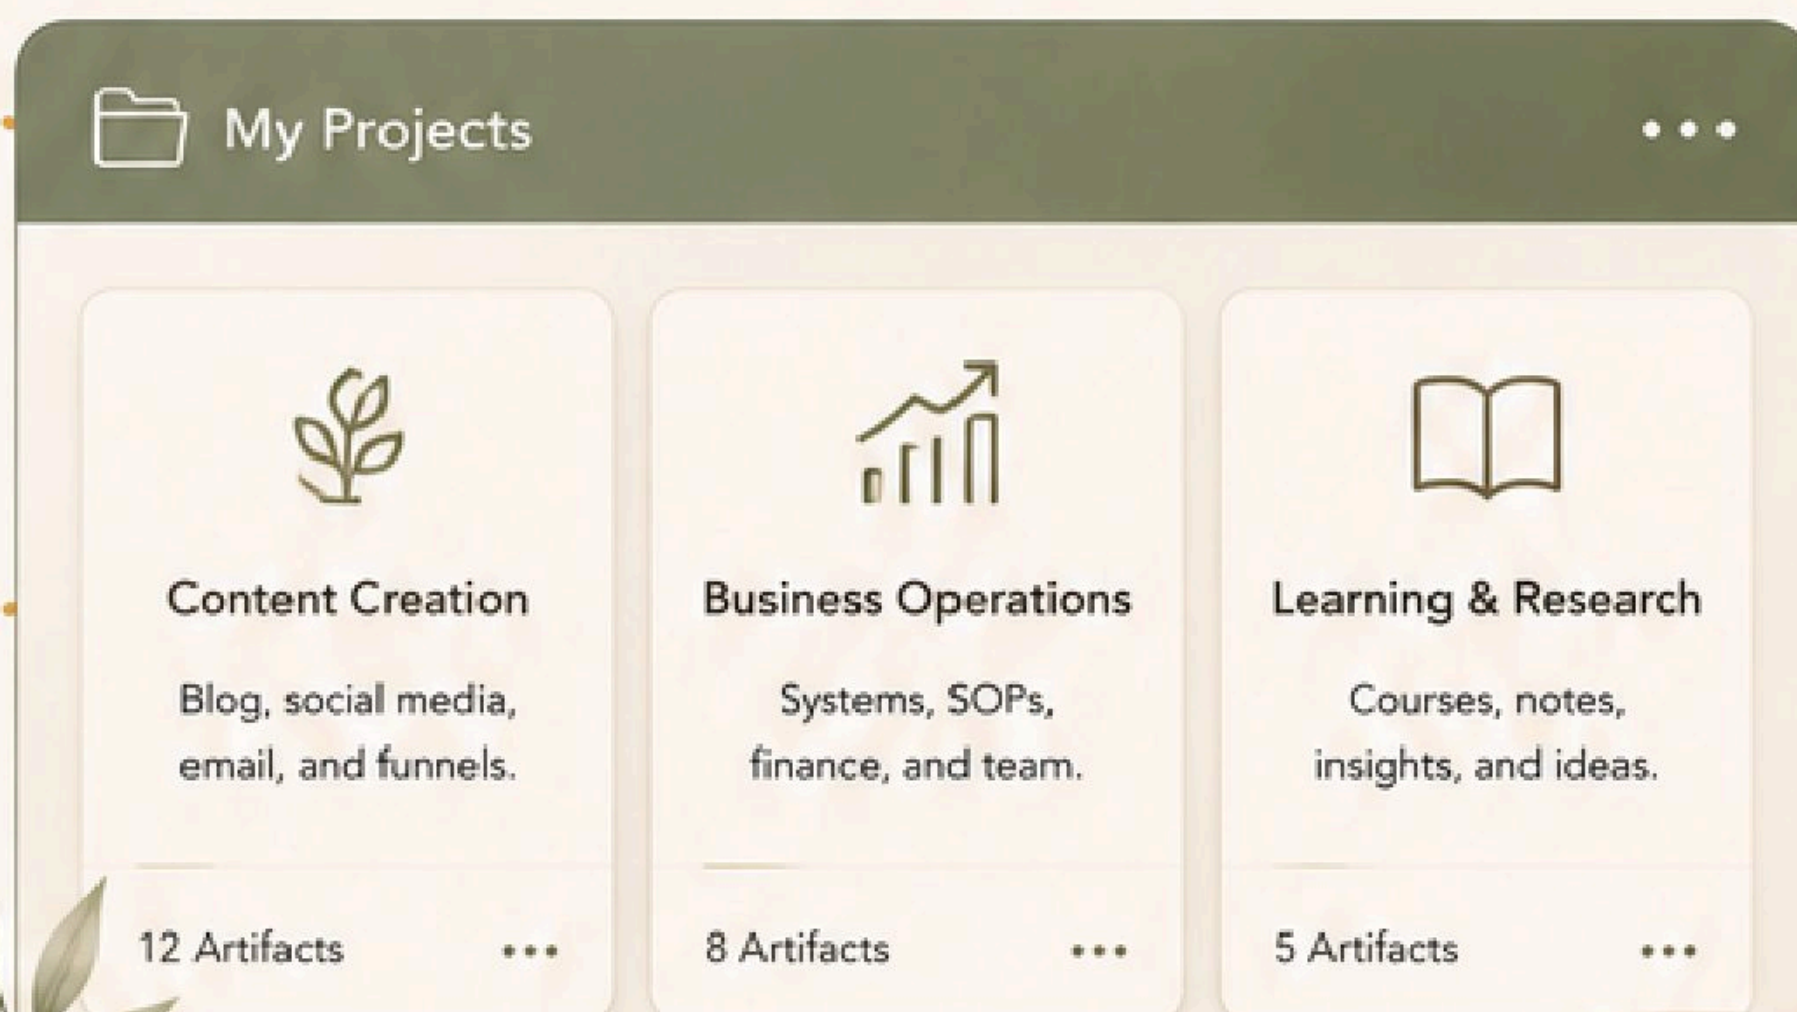

SHARE & COLLABORATE

Work together with your team or clients.

PRIVATE & SECURE

Your data stays yours. Always.

WHAT LIVES INSIDE A PROJECT

CONVERSATIONS

All related chats stay organized and connected.

FILES & KNOWLEDGE

Upload docs, notes, research, and training materials.

ARTIFACTS

Everything you create lives here — easy to find and reuse.

INSTRUCTIONS & CONTEXT

Set custom instructions, preferences, and style.

CONTINUITY

Pick up right where you left off — every single time.

PROJECT BEST PRACTICES

ONE PROJECT = ONE GOAL

Keep projects focused and purpose-driven.

CLEAR NAMING

Name projects so you (and Claude) always know the purpose.

ADD CONTEXT EARLY

Upload key docs and set the scene from the start.

REVIEW & REFINE

Update instructions and files as your goals evolve.

ARCHIVE WHEN DONE

Keep active projects clean and current.

— MODULE —

05 Cowork

Your AI teammate that gets things done with you.

Cowork is Claude's proactive partner inside your projects.

It understands your work, suggests next steps, and helps you move from idea to impact — faster.

UNDERSTANDS YOUR CONTEXT

Knows your goals, files, conversations, and preferences.

Cowork

● Active in this project

Hi! I'm Cowork.

I'm here to help you make progress.

What would you like to work on today?

Review project brief and goals

Suggest next steps

Find relevant knowledge

Create or update an artifact

Summarize recent conversations

WORKS WITH YOU

Collaborates in real time to get things done together.

KEEPS YOU ON TRACK

Helps prioritize, follow through, and finish strong.

PROACTIVE SUGGESTIONS

Offers ideas, next steps, and helpful reminders.

WHAT COWORK CAN DO

SEARCH & FIND

Quickly surface info from your project and knowledge.

PLAN & ORGANIZE

Break big goals into actionable steps and timelines.

CREATE WITH YOU

Draft, write, design, and build artifacts side by side.

ANALYZE & INSIGHT

Spot patterns, risks, opportunities, and key takeaways.

KEEP IT CURRENT

Update docs, track changes, and keep everything aligned.

ACCELERATE IMPACT

Save time, reduce friction, and ship your best work.

MAKE COWORK EVEN BETTER

- ✓ Be specific about your goals and constraints.
- ✓ Upload the right context (docs, notes, data).
- ✓ Review Cowork's suggestions and iterate together.
- ✓ Give feedback so Cowork learns your style and preferences.

*Cowork isn't just an assistant.
It's a momentum multiplier.
You dream it. We'll build it.*

L I L I H U M A N . C O M

— MODULE —

06

Claude Code

Your command line. Supercharged by Claude.

Claude Code brings Claude's reasoning and coding power directly to your terminal. Build, debug, refactor, and ship — all without leaving your workflow.

NATURAL LANGUAGE

Describe what you want in plain English.

CODE AWARE

Understands your codebase, context, and dependencies.

SHIP FASTER

Automate the boring parts so you can focus on impact.

SAFE & CONTROLLED

You're in control. Review changes before they stick.

WHAT YOU CAN DO WITH CLAUDE CODE

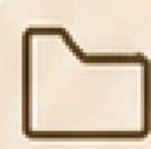

WRITE & REFACTOR CODE

Add features, fix bugs, clean up code, and improve structure.

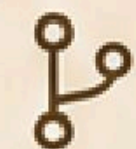

DEBUG & TEST

Find issues, write tests, and make sure everything works.

WORK WITH FILES

Create, edit, move, and organize files with ease.

GIT INTEGRATION

Stage changes, commit, diff, and manage branches.

EXTEND IT

Use slash commands, config files, and custom workflows.

CLAUDE CODE BEST PRACTICES

BE SPECIFIC

Clear goals = better results.

GIVE CONTEXT

Share relevant files, errors, and goals up front.

ITERATE

Build step by step. Review and refine as you go.

REVIEW ALWAYS

You stay in control. Review before you commit.

LEARN & IMPROVE

Use feedback to make Claude Code even better.

PRO TIP

- ✓ Start with small, focused tasks to build confidence.
- ✓ Use `claude --help` to discover built-in commands.
- ✓ Create custom slash commands to automate your flow.
- ✓ Keep your `CLAUDE.md` file updated with your preferences.

“

Claude Code is like having a senior engineer in your terminal. You drive. It executes.

MODULE

07

Scheduled Tasks & Routines

Set it up once. Claude handles it on autopilot.

Scheduled tasks let Claude work for you in the background. From daily briefs to weekly reports, routines keep your projects moving without you lifting a finger.

RUNS IN THE BACKGROUND

Claude works while you focus on what matters most.

RECURRING SCHEDULES

Set it once, choose the cadence, and let it run.

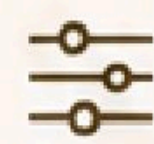

NOTIFICATIONS YOU CONTROL

Get notified when tasks complete or need review.

CONSISTENT RESULTS

Reliable outputs, delivered on your schedule.

FULLY CUSTOMIZABLE

Control prompts, formats, sources, and outputs.

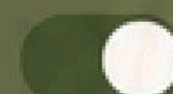

TRUSTED & SAFE

Runs within your workspace and permissions.

Scheduled Tasks

Daily Briefing

Get a summary of important updates and priorities.

Every day

8:00 AM

Weekly Report

Review progress, metrics, and next steps.

Every Monday

9:00 AM

Content Ideas

Generate blog and social content ideas.

Every Friday

10:00 AM

Competitor Monitor

Track competitor news and market changes.

Every weekday

4:00 PM

+ New Scheduled Task

WHAT YOU CAN AUTOMATE WITH SCHEDULED TASKS

REPORTS

Daily, weekly, or monthly summaries tailored to you.

EMAIL DRAFTS

Draft replies, updates, or newsletters on a schedule.

MONITORING

Track news, changes, or trends and surface insights.

DATA CHECKS

Pull data, analyze, and alert you to what matters.

IDEA GENERATION

Fresh ideas, content, and solutions — delivered regularly.

REMINDERS

Nudges, follow-ups, and task lists you can trust.

SCHEDULED TASK BEST PRACTICES

START SMALL

Begin with one or two tasks. Expand as you go.

BE SPECIFIC

Clear goals and instructions = better results.

PROVIDE CONTEXT

Share relevant files, preferences, and examples.

CHOOSE THE RIGHT CADENCE

Match the schedule to your needs.

REVIEW & REFINE

Check outputs, iterate, and keep improving.

STAY IN CONTROL

You can pause, edit, or delete any task at any time.

PRO TIP

- ✓ Use Claude's memory to improve task performance over time.
- ✓ Test prompts before scheduling to ensure quality.
- ✓ Combine tasks with Projects and Artifacts for powerful workflows.

“

The best systems don't just work hard. They work for you — even when you're off the clock.

LILIHUMAN.COM

MODULE

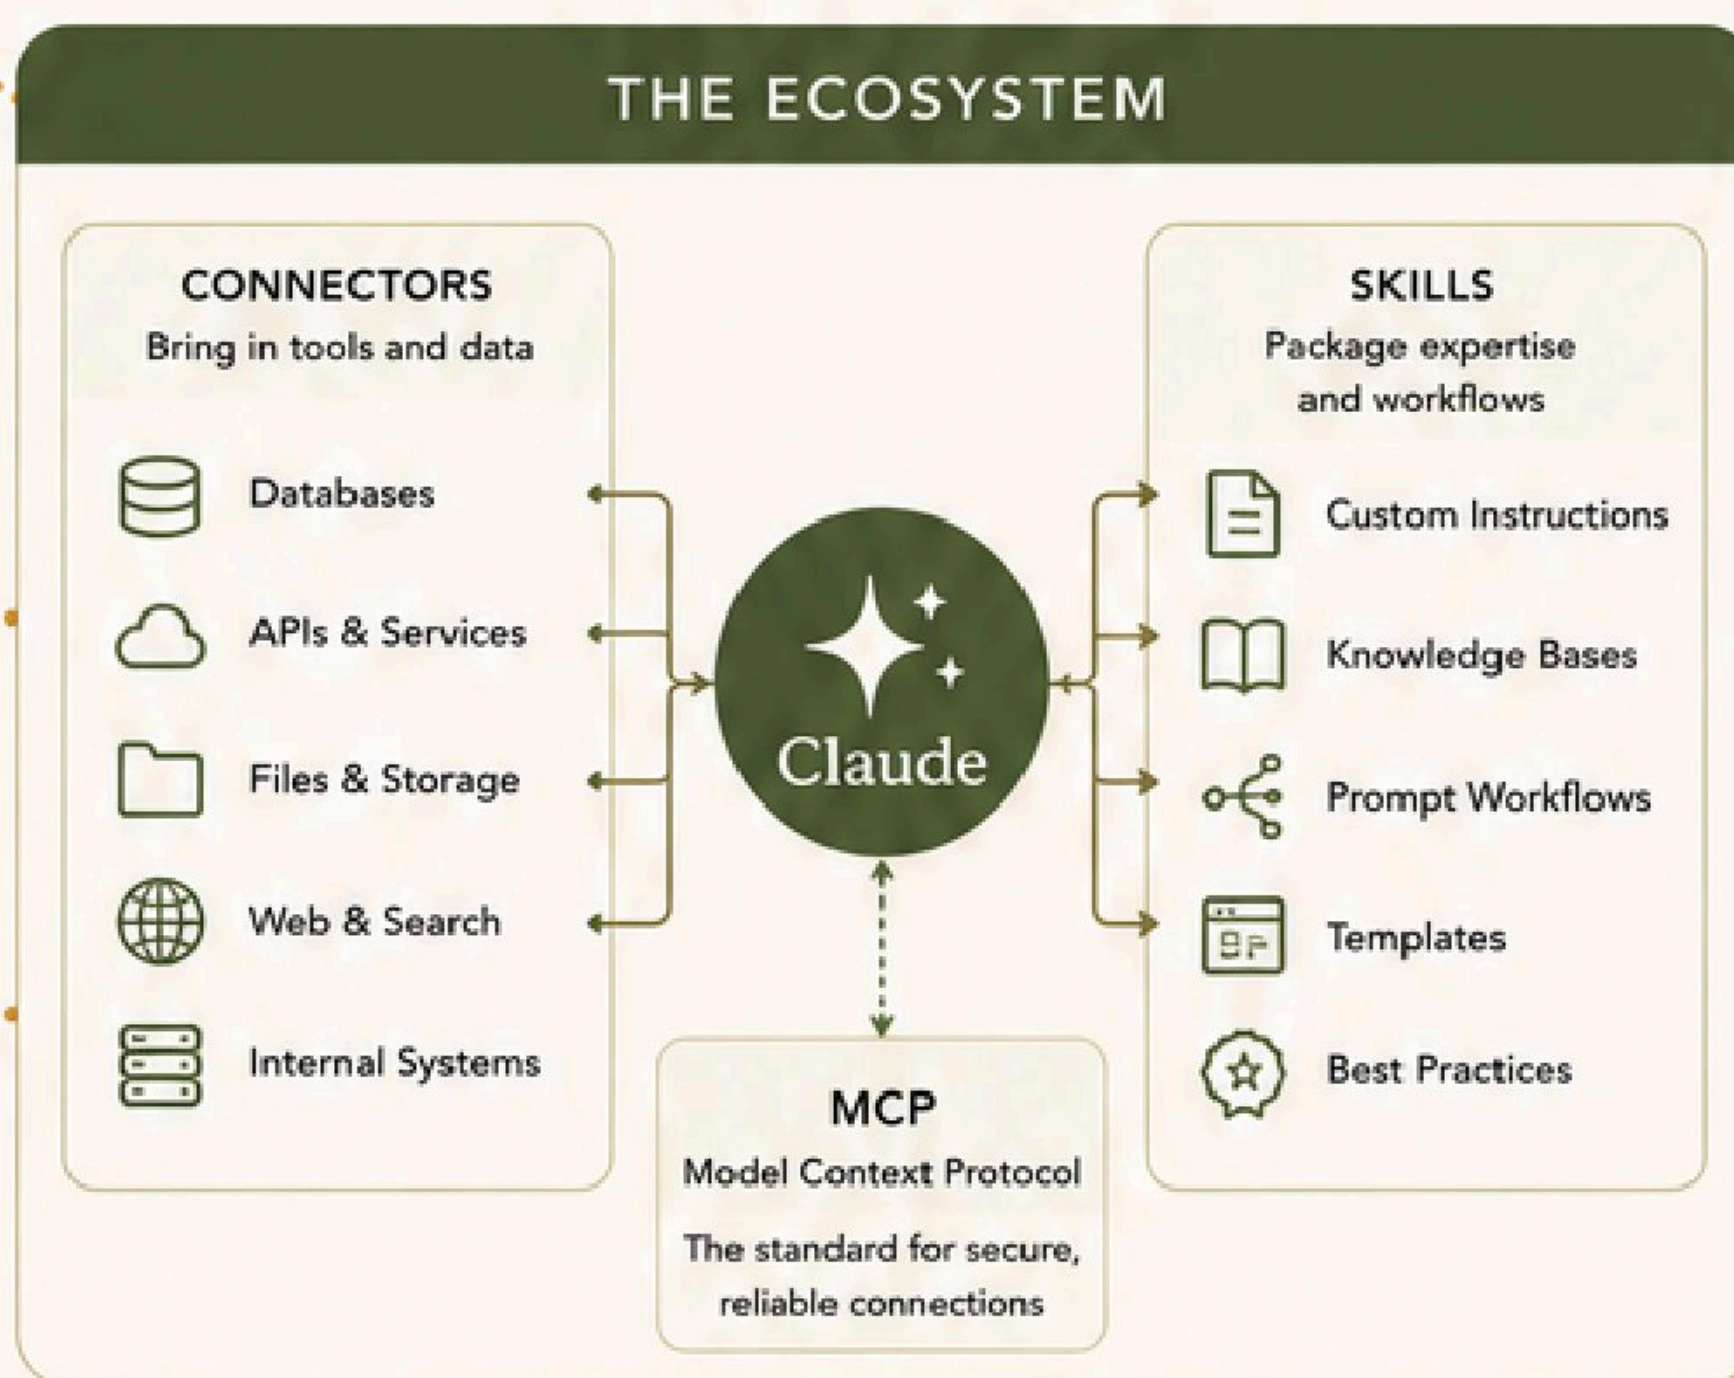

08

Connectors, MCP & Skills

Give Claude the connections and abilities to do more.

Connectors and MCP bring external tools and data to Claude.
Skills package instructions and knowledge so Claude
can solve your problems — your way.

THE ECOSYSTEM

CONNECT TO EXTERNAL TOOLS

APIs, databases, files, web services, and more.

SECURE & CONTROLLED

You decide what Claude can access and do.

MCP BRIDGES THE GAP

Model Context Protocol standardizes how Claude connects.

MORE POWER, MORE CONTEXT

Bring the right data and tools into the conversation.

REUSABLE SKILLS

Save prompts, knowledge, and workflows as Skills.

SHARE & SCALE

Share Connectors and Skills with your team or community.

WHAT YOU CAN DO

CONNECT

Add tools and data sources Claude can use in real time.

CONFIGURE

Set permissions, parameters, and behaviors.

BUILD SKILLS

Create reusable Skills with prompts, files, and instructions.

AUTOMATE

Let Claude act with the right context and capabilities.

SHARE

Distribute Connectors and Skills across your workspace.

IMPROVE

Track usage, get feedback, and refine over time.

CONNECTORS & SKILLS BEST PRACTICES

START SMALL

Add one connector or skill at a time.

BE EXPLICIT

Clearly describe what each connector or skill can (and can't) do.

TEST THOROUGHLY

Verify outputs and handle errors gracefully.

LIMIT ACCESS

Only give access to what's necessary and safe.

LOG & MONITOR

Review activity, usage, and performance regularly.

KEEP IMPROVING

Update instructions, data, and workflows as needs evolve.

PRO TIP

- ✓ Use MCP for dynamic, real-time connections.
- ✓ Use Skills for repeatable expertise and workflows.
- ✓ Document everything for your future self (and your team).
- ✓ Security and clarity today = scale and reliability tomorrow.

*Connect what matters.
Package what you know.
Unlock what's possible.*

MODULE

09

Artifacts & Knowledge

Capture once. Reuse forever.

Artifacts and knowledge are the memory of your projects.
Claude remembers, connects, and reuses them
to save time and deliver better results.

BUILT-IN MEMORY

Claude remembers what matters across projects and sessions.

REUSE & SAVE TIME

Leverage past work instead of starting from scratch.

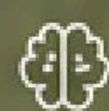

ORGANIZED & SEARCHABLE

Find what you need, when you need it, instantly.

RICH & FLEXIBLE

Store docs, notes, prompts, links, and more.

My Knowledge Hub

Search knowledge...

Project Briefs

Goals, scope, requirements, and success criteria.

24 items

Insights & Learnings

Key takeaways, lessons, and aha moments.

31 items

Templates & Prompts

Reusable prompts, instructions, and boilerplates.

18 items

References & Links

Articles, docs, tools, and research links.

47 items

Stakeholders

Team roles, preferences, and communication notes.

16 items

Best Practices

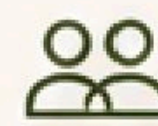

What works, standards, and proven approaches.

22 items

ACCURATE & RELIABLE

Keep your knowledge consistent, up to date, and trusted.

SHARE & COLLABORATE

Share knowledge with your team securely.

TYPES OF ARTIFACTS YOU CAN SAVE

Documents

Plans, briefs, reports, notes

Data

Tables, datasets, metrics, exports

Images

Charts, screenshots, diagrams, mockups

Prompts

Instructions, templates, scripts

Code

Snippets, queries, functions, configs

Links

URLs, articles, research, tools

Decisions

Rationales, choices, and next steps.

BEST PRACTICES

CAPTURE EARLY

Save important info as you go.

USE CLEAR NAMES

Name artifacts so they're easy to find and understand.

ORGANIZE WELL

Use collections or tags to keep things tidy.

KEEP IT CURRENT

Review and update your knowledge regularly.

RESPECT PRIVACY

Store only what's needed. Share mindfully.

FOCUS ON VALUE

Save what helps you and your team make better decisions.

PRO TIP

- ✓ Turn good outcomes into reusable knowledge.
- ✓ Document your process and decisions.
- ✓ Build a living library that grows with your work.
- ✓ Let Claude connect the dots for you.

“
Knowledge grows when it's captured.
Value multiplies when it's reused.
Claude helps you do both — seamlessly.”

MODULE

10

Projects, Workflows & Automation

From ideas to impact. Systematize your success.

Bring everything together. Use Projects, Workflows, and Automation to scale your results, save time, and deliver consistent value — every single time.

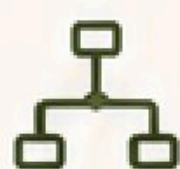

CENTRALIZE YOUR WORK

Keep all your projects, files, and knowledge in one organized workspace.

CONSISTENT OUTCOMES

Deliver high-quality results, every time, at scale.

BUILD SMART WORKFLOWS

Turn repeatable processes into step-by-step workflows.

AUTOMATE WHAT MATTERS

Let Claude handle the busywork so you can focus on impact.

PROJECT COMMAND CENTER

ACTIVE PROJECTS

	Launch Campaign Go-to-market campaign	75%
	Product Roadmap Q2 planning & features	60%
	Content Engine Blog, social & newsletter	80%
	Client Onboarding Process & templates	90%
	Research Hub Insights & competitor intel	45%

+ New Project

MY WORKFLOWS

- Content Creation Flow
- Client Onboarding Flow
- Weekly Reporting Flow

+ New Workflow

AUTOMATIONS

- Daily Brief Generator
Every day at 8:00 AM
- Report Summarizer
Every Monday at 9:00 AM
- Task Reminder Bot
Every weekday at 4:00 PM

+ New Automation

TRACK & OPTIMIZE

Measure performance, learn what works, and improve.

COLLABORATE WITH EASE

Share projects, delegate, and align your team.

WHAT YOU CAN DO

MANAGE PROJECTS

Create, organize, and track all your projects in one place.

DESIGN WORKFLOWS

Map your process step-by-step and standardize success.

AUTOMATE TASKS

Set triggers and actions to automate repetitive work.

INTEGRATE TOOLS

Connect apps and data sources to streamline your ecosystem.

COLLABORATE

Assign roles, share updates, and work together seamlessly.

MEASURE IMPACT

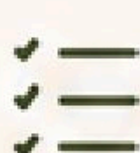

Use dashboards and insights to track and improve results.

BEST PRACTICES

START WITH A GOAL

Define the outcome you want. Build backward from it.

KEEP IT SIMPLE

Design simple, clear workflows you can actually maintain.

AUTOMATE WISELY

Automate steps that save time and reduce manual effort.

TEST & REFINE

Test your workflows. Refine until they work perfectly.

DOCUMENT

Document your process so your team and future you can scale it.

ITERATE & SCALE

Continuously improve what works. Then scale it.

PRO TIP

- ✓ Turn your best work into repeatable systems.
- ✓ Use Workflows to maintain quality as you scale.
- ✓ Automate the 20% that drives 80% of your results.
- ✓ Review and optimize regularly — systems evolve.

“
Systems don't limit you.
They set you free to create,
lead, and make a bigger impact.”

MODULE

11

Memory, Context & Long-Term Value

The more Claude remembers, the more valuable it becomes.

Use memory and context to maintain continuity, personalize interactions, and build long-term value across all your work.
— so Claude grows with you.

MEMORY THAT REMEMBERS

Claude retains what matters across chats and projects.

CONTEXT IS EVERYTHING

More context = better answers, less back-and-forth.

PERSONALIZED EXPERIENCE

Tailored responses that match your style, goals, and needs.

CLAUDE MEMORY HUB

Memory: ON ☒

What Claude remembers about you

Your Goals

Build a personal brand, grow an online business, and create impactful content.

Edit

Your Preferences

You prefer clear, actionable steps, examples, and visual breakdowns.

Edit

Your Style

Friendly, motivating tone. Bullet points, summaries, and practical frameworks.

Edit

Your Projects

Content calendar, lead magnet, course outline, brand kit, and community plan.

Edit

Key Facts

You're a coach and content creator.
You love productivity, organization, and design.

Edit

Tip: The more you share, the more Claude can remember and help.

BUILD LONG-TERM VALUE

Create a knowledge partner that grows with your journey.

CONSISTENT & RELIABLE

Get aligned, on-brand results—every single time.

YOU'RE IN CONTROL

Manage, review, and update memory whenever you want.

WHAT YOU CAN DO WITH MEMORY & CONTEXT

KEEP CONTINUITY

Pick up where you left off—across sessions, projects, and topics.

PERSONALIZE

Get responses tailored to your goals, voice, and audience.

SAVE TIME

No need to repeat information or explain everything.

MAKE BETTER DECISIONS

Claude understands your full picture and gives smarter advice.

BUILD DEEPER SOLUTIONS

More context leads to richer ideas and more powerful results.

COMPOUND VALUE

Each interaction makes Claude even more valuable over time.

MEMORY & CONTEXT BEST PRACTICES

SHARE THE BIG PICTURE

Give Claude your goals, challenges, and important background.

KEEP IT UPDATED

Refresh or correct details as your projects and goals evolve.

BE SPECIFIC

Clear, detailed context leads to more accurate and helpful results.

ORGANIZE YOUR INFO

Use projects, docs, and tags to keep everything structured.

REVIEW REGULARLY

Check what Claude remembers and adjust when needed.

PROTECT PRIVACY

Only share what you're comfortable with. You're in control.

PRO TIP

- ✓ Start conversations by providing context.
- ✓ Use reminders like "Remember this" or "Update my goal".
- ✓ Reference past work: "As we discussed earlier..."
- ✓ Combine memory + files + tools for maximum results.

Knowledge remembered is value multiplied. Claude remembers so you can focus on what matters most.

MODULE

12

Worked Example Projects

See Claude in action. Learn by doing.

Six complete projects. Real prompts, real outputs, real results.
Study how ideas become outcomes — step by step.

THE SIX WORKED EXAMPLE PROJECTS

01		Marketing Campaign Plan Research, message, audience, channels, timeline, and success metrics.	Campaign Plan
02		Blog Post Series Topic research, outlines, full posts, SEO titles, and meta descriptions.	3 Blog Posts + Assets
03		Business Analysis Report Analyze a scenario, find insights, and deliver clear recommendations.	Report + Insights
04		Email Funnel Sequence Welcome, nurture, and offer emails that convert and build trust.	5 Email Sequence
05		Product Launch Plan Positioning, roadmap, tasks, content, and go-to-market strategy.	Launch Playbook
06		Learning Course Outline Curriculum, modules, lessons, resources, and assessments.	Course Outline

LEARN BY EXAMPLE

Real-world projects show you what's possible.

SEE THE PROCESS

Follow every step: prompt, plan, build, refine, deliver.

APPLY & ADAPT

Use what you learn and adapt it to your own goals.

PROVEN RESULTS

Each project solves a problem and creates value.

IMPROVE FASTER

Analyze approaches and speed up your own learning curve.

BUILD CONFIDENCE

Complete projects build skills and momentum.

WHAT YOU'LL GET IN EACH PROJECT

THE BRIEF

Understand the goal, scope, and success criteria.

THE PROMPTS

See the exact prompts used at each key step.

THE PROCESS

Follow the workflow from start to finish.

THE OUTPUT

Review the final deliverables and assets.

KEY TAKEAWAYS

Learn the highlights, lessons, and what you can reuse.

YOUR TURN

Try it yourself with starter prompts to adapt.

HOW TO GET THE MOST OUT OF THESE PROJECTS

STUDY DEEPLY

Read every step and understand the decisions.

PRACTICE ACTIVELY

Recreate the project on your own.

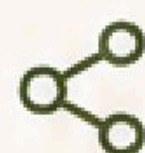

CUSTOMIZE

Tailor the prompts and outputs to your needs.

IMPROVE & ITERATE

Refine your results and make them even better.

SHARE & GET FEEDBACK

Share your work and learn from others.

BUILD YOUR PORTFOLIO

Use your projects to showcase your skills and value.

PRO TIP

- ✓ Pause and think before you prompt.
- ✓ Reuse patterns that work.
- ✓ Compare different approaches.
- ✓ Keep improving — that's how mastery grows.

“

Examples are the bridge between knowledge and skill. Walk across it, build on it, and make it your own.

L I L I H U M A N . C O M

MODULE

13

Cheat Sheet & Capstone

Your quick reference. Your mastery.

Everything you've learned — in one place — so you can apply, create, and keep growing with Claude.

THE 13 MODULES AT A GLANCE

PICK THE RIGHT MODEL

- ✓ Haiku 4.5 – Fast & cheap
- ✓ Sonnet 4.6 – Balanced
- ✓ Opus 4.8 – Deep & complex
- ✓ Think quality, cost & speed

HAVE BETTER CONVERSATIONS

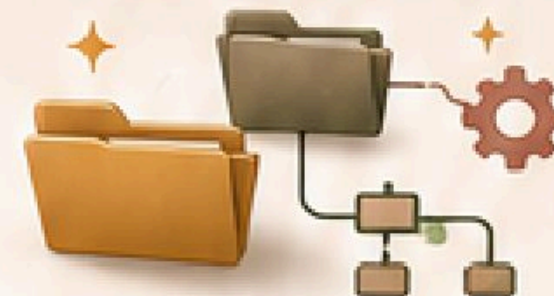

- ✓ Give clear context
- ✓ Use examples
- ✓ Ask step-by-step
- ✓ Iterate & refine
- ✓ Be specific

CREATE WITH ARTIFACTS

- ✓ Docs, tables, charts
- ✓ Data & visualizations
- ✓ Code, prompts, templates
- ✓ Keep, reuse & share

BUILD PROJECTS & WORKFLOWS

- ✓ Organize your work
- ✓ Track progress
- ✓ Automate tasks
- ✓ Measure results
- ✓ Scale what works

CONNECT & SUPERCHARGE

- ✓ APIs & services
- ✓ MCP connections
- ✓ Skills & prompts
- ✓ Automate & integrate
- ✓ Bring outside data in

MEMORY, CONTEXT & KNOWLEDGE

- ✓ Claude remembers what matters
- ✓ Build your knowledge hub
- ✓ Keep it accurate & up to date
- ✓ Personalize your experience

THE SUCCESS FLOW

AUTOMATE & SCALE

- ✓ Save time
- ✓ Reduce manual work
- ✓ Improve consistency
- ✓ Focus on high-value tasks
- ✓ Grow your impact

SIX EXAMPLE PROJECTS YOU CAN BUILD

- ✓ Marketing plan
- ✓ Blog post series
- ✓ Business report
- ✓ Email sequence
- ✓ Product launch plan
- ✓ Course outline

YOUR CAPSTONE

- ✓ Choose a real goal
- ✓ Use what you've learned
- ✓ Build a complete solution
- ✓ Deliver real results
- ✓ Celebrate progress

KEEP GROWING

- ✓ Stay curious
- ✓ Experiment
- ✓ Share & teach
- ✓ Build your brand
- ✓ Make a difference

*"You now have the map, the tools, and the skills.
The rest is your story."*
